

PERMIT/DOCUMENT SUBMITTAL PROCESS

Staff at Rum River Construction Consultants pride themselves on being professional, proactive and forward thinking in the administration of the Minnesota State Building Code. Acting in the role of Designated Building Official places us in a position where we can help residents and business owners safeguard their properties and building projects from potential hazards.

Using available technology, applicants are invited and encouraged to send fillable pdf applications, building plans and other required submittals via email, saving money on printing costs as well as valuable time spent traveling to central offices.

Please reference Permit Applications and Construction Handouts which provide valuable information about various building projects. We will work with you every step of the way to evaluate and document details of the construction process.

Should you have specific questions about your project, please feel free to contact Andy Schreder, Chief Building Official at RRCC. Thank you for your time, we look forward to working with you on your building or remodeling project.
